

Aldelo Gift Card Server

- Centralize Management
- Eliminate Errors
- Seamless Integration
- Generate More Sales

Centrally Manage Your Gift Cards

Aldelo Gift Card Server is the perfect choice to centrally manage your gift cards for all your restaurants. Our central gift card server integrates seamlessly with Aldelo For Restaurants Pro Edition, allowing your staff to issue, redeem & inquire gift card balance in real time with ease.

Eliminate Errors in Balance Tracking

With Aldelo Gift Card Server, gift cards from all your restaurants are centralized for more accurate control. Issues such as tedious manual balance tracking, inaccurate redemption balance, per transaction fees and other inefficiencies or costs are all eliminated.

Transparent and Seamless

Aldelo Gift Card Server is also easy to use and completely transparent to your staff. By enabling the central gift card feature will automatically turns off local gift cards mode in the POS application.

Your staff will not need to learn anything new whether your restaurant is using the included local gift cards features or the upgraded central gift card server.

Issue and Redeem at any Location

Aldelo Gift Card Server allows you to start offering gift cards from all your restaurants and redeem them at any location without additional per transaction fee or monthly service charges! You will like the additional sales our solution will help you generate and the cost savings you will receive. Start offering managed gift cards today with Aldelo Gift Card Server.

48% of table-service restaurant operators offering gift cards anticipate that gift cards will represent a larger proportion of their total sales in 2006

Gift cards are low-overhead, high-return products and retailers in other markets have done an excellent job of convincing consumers that there's nothing impersonal about giving the gift of choice.

Increase Your Profits
