

Price Management

Elevating Brands and Accelerating Performance
Throughout the Global Retail Supply Chain

Avery Dennison® 9878™ Mobile Workstation

Accelerate Performance: Price Management

Accelerate performance in global Price Management through integrated in-plant, distribution center and store-level solutions that reduce complexity while improving speed and accuracy.

Navigate Your Aisles and Rounders

The Avery Dennison 9878 Mobile Workstation is an efficient, self-contained alternative to back room batch printing, allowing you to take the printing where you need it. Small enough to navigate your aisles, big enough to handle your stationary printer for:

- Sign Printing
- In-Aisle Printing
- Markdowns
- Shelf Labeling

Improve Pricing Productivity

- Complete pricing tasks in “one lap” of the department
- Perform markdowns in the aisle, then move to the point-of-sale for reticketing returned goods.

Facilitate Mobile Sign Printing

- The right sign is automatically verified and printed where the product is. No sorting, organizing or manual matching needed.
- No need to print extra signs. Print what you need, when you need it.
- Promotional signs are in place sooner, increasing the visibility of sales for your customers.
- Keep your associates on the selling floor, not in the back room printing signs.

Elevating Brands. Accelerating Performance.

Experience Avery Dennison supply chain solutions at our worldwide Customer Design and Innovation Centers.
