

My Digital Shield – Super Security. Unmatched Simplicity.

\$300K

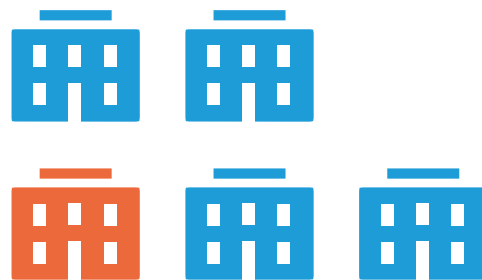

**\$300K is the average
cost of a single
cyber attack**

My Digital Shield (MDS) is a complete security solution for the small business – YOUR business. MDS is very simple to install and use, and it requires no upfront investment and no ongoing maintenance.

With MDS, you can thwart cyber attacks and data leaks before they happen with one simple piece of equipment that taps the power of the same security systems used by Big Business, but at an affordable price.

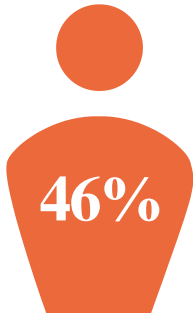

My Digital Shield Provides

- ▶ Affordable enterprise-level cyber security designed for the small business
- ▶ Easy-to-configure customer portal unique to your business
- ▶ Ability to defend against the latest virus and cyber threats as they happen without the need to download updates or plug-ins

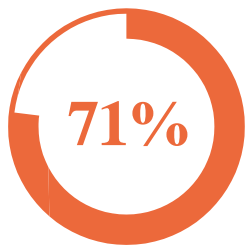

1 in 5

**small businesses falls victim
to cybercrime each year**

46% of consumers avoid small merchants in response to fraud and data breaches

71% of all data breaches happen to small businesses

My Digital Shield Benefits

- ▶ Protects customer and company data from outside threats and viruses
- ▶ Ensures that credit card data is handled in accordance with PCI industry regulations
- ▶ Screens threats and viruses in the cloud, before they reach your network
