

WS 500

Light Capacity Platform Scales

- Low cost
- Stainless steel platform top
- Stainless steel display pod
- Mains or battery power
- 500 kg capacity
- 915 mm x 915 mm platform
- Bench or wall mounted display
- RS-232 output standard

WS 500 Light Capacity Platform Scales

Features

WS 500 light capacity platform scales provide a low cost solution for general purpose weighing of any item up to 500 kg capacity.

With 1 part in 6000 resolution these platform scales give a weighing performance of 500 kg x 100 g.

These well designed low profile machines incorporate four full load bridge loadcells with self levelling, anti-slip feet to give a solid base in use.

The large 915 mm x 915mm, platform has a tough, mild steel understructure and a stainless steel top.

5 metres of cable connects the base to the stainless steel indicator pod which features clear 17 mm high LCD display digits. A plastic display pod bracket is included to enable the indicator to be wall or bench mounted.

Key display features are: on/off, push button tare to enable container weights to be removed and net weight only displayed; kg/lb switching to give readings in either metric or imperial measures and hold/print, which allows the weight to be either frozen even when the item being weighed is removed or the weight to be transmitted to a printer or other peripheral device.

The scales feature auto zero tracking to automatically compensate for small fluctuations in zero such as a build up of material on the platform.

To extend battery life an auto-off feature is standard, with the scale switching itself off after 2 minutes of inactivity.

Specifications

Capacity: 350 kg x 100 g

Power: 4 x 1.5 volt AAA batteries (not supplied)
6 volt UK/EU power adaptor (supplied)

Platform Dimension: 915 mm x 915 mm x 60 mm

Display Pod: Stainless steel housing

Display Pod Size: 160 mm x 80 mm x 30 mm

Display: 5 ½ digit, 17 mm high, LCD

Function Keys: On/off; tare; kg/lb; hold/print

Annunciators: Zero; net; hold; kg/lb

Tare: 100% subtractive

Operating Temperature: +5° C to + 40° C

Approvals:

CE

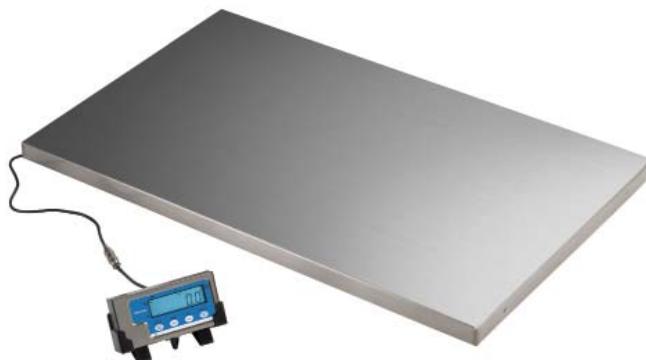

WEEE directive

Product Code: 816965003778

Unit Weight: 42 kg

Packing Dimension: 1080 mm x 1080 mm x 160 mm

Packed Weight: 45 kg
