

(Option 1)

Absentee Notification
starts here.

"This is (school name) calling to notify you that your child was absent from school today. If you have any questions, please call our attendance office at (phone number)."

Additional **Absentee Notification** options are available. For more information, please contact your local representative.

e-IVR™

Absentee Notification

In today's environment, administrators are seeking innovative methods to meet the needs of parents and students.

The **Absentee Notification** system will place calls or send email messages to the homes of all students that are absent on a given day. Parents can visit the school's Web site or call into the system, enter their personal identification number and check to see if one or more of their children are absent.

The **Absentee Notification** system

- ✓ Improves communication link between teachers, parents and students
- ✓ Provides automated parental notification of a child's absence
- ✓ Easy to administer using a Windows-based system
- ✓ Accommodates an unlimited number of out dial notifications*
- ✓ Frees teachers and office personnel for other important tasks
- ✓ Can integrate with **Homework Hotline** so parents can obtain homework assignments and absentee information with one call
- ✓ Ties in to the 10-Page Template Web site that is standard with **e-IVR Fusion™ Application Server**

* Dependent upon hard disk space and business hours
