HP Cash Drawer

EY026AA

Introduction

Designed around a full-sized till, the HP Cash Drawer has a narrow footprint, minimizing the amount of counter space required in your retail environment. There is ample storage in a deep under-till compartment to hold coin rolls and packaged bills.

The HP Cash Drawer is specifically designed for use with HP Point of Sale System rp5000 and rp5700, connecting through the HP USB Receipt Printer (Model: EY023AA). The HP Cash Drawer does not connect directly to the HP Point of Sale System rp5000 and rp5700. It must be connected through a HP USB Receipt Printer (Model number: EY023AA) via the provided interface cable.

An adjustable media slot divider separates and organizes different sections for bills and various coin denominations.

Additional accessories compatible with the HP Cash Drawer include a till, till cover, under counter mounting brackets, etc. Interchanging tills helps reduce time during shift changes, and ensures each clerk is responsible for their own till. Till covers offer increased security when the till is removed from the HP Cash Drawer. Under counter mounting brackets provide a secure mounting system freeing up valuable counter space.

NOTE: Additional cash drawer accessories such as tills, mounting brackets and others should be ordered directly from APG (<http://www.apgcd.com>).

Overview

Key Benefits

- Space-saving design
 - HP USB Receipt Printer interface cable
 - Four-function lock offering several levels of security: locked closed, locked open, online and manual open.
 - Coin roll storage drawer and configurable media compartments designed for the US market
