

MGBSGL-1—MULTIPLE GROUND BAR & SCREW GROUND LUG FOR 66 BLOCK PROTECTORS

Features

An UltraLinx 66 block Ground Bus Bar is required for use with all UltraLinx Protectors to provide the necessary ground connection from the each protected pair to the Single Point Equipment Ground. One MGB is required per installation of 1 to 25 protected pairs. Each bus bar is scored for breaking into smaller pieces for use with less than 25-pairs. A screw ground lug is also provided for connecting a single point ground wire.
