Model 335 Postal/Office Scale

Features

This simple weight-only electronic scale is perfect for letter and small parcel mail to ensure correct postage without overpayment. The low profile design is easy to use and store. Features a flip-up letter stand to hold large envelopes. Powered via 9V battery (not included) or USB cable (included). This model has a Hold feature for larger parcels, a Units key to toggle between lbs/oz and kg/g, a Tare key and an On/Off key.

The USB interface is designed to work with some of the modern USPS application packages to print postage locally from a PC. The scale transmits weight via the USB cable to the PC and the application program then takes the weight for postal calculations.
