

SMD2-1214

The Most Compact Cash Drawer in its Class

Star Micronics is excited to announce the addition of the SMD2 series to its mPOS solution lineup.

Star's SMD2 cash drawers give retailers the ultimate flexibility in providing their customers with a truly unique shopping experience. It supports wireless operation and allows the user flexibility in configuring their store layout without restriction due to wiring or other traditional infrastructure limitations. With the ability to communicate via standard printer driven interface with included cable or Star's DK-AirCash wireless option for Ethernet, Bluetooth 2.1 or MFi certified Bluetooth communication;

Star's SMD2 cash drawers enable secure cash management in any sales environment. Available in small (SMD2-1214), medium (SMD2-1317) and large (SMD2-1617) sizes with either white or black color finish, Star's SMD2 cash drawers have a look and fit suitable for any application.

Star's SMD2-1214 is the most compact cash drawer in its class. Perfect for space sensitive or low cash volume situations, the SMD2-1214 offers the functionality of a full-sized cash drawer combined with a space saving small footprint and connectivity options necessary in a mobile POS environment.

- **Small Footprint for Space Sensitive & Low Cash Volume Situations**
- **DK-AirCash Connectivity Options include: Bluetooth 2.1, MFi Certified Bluetooth or Ethernet for mPOS**
- **Quality All Steel Construction**
- **Single long media slot for check & cash management**
