

# SP2000 Series

HIGH PERFORMANCE, DOT MATRIX PRINTERS

3 YEAR  
WARRANTY

## DESCRIPTION

The SP2000 dot matrix impact printer is a high performance printer ideal for a variety of POS applications from elegant dining establishments to your local corner deli. The SP2000 is positioned in a class with our popular SP300 printers, but has the footprint of our small SP200 printers. Standard features include logo store, dual cash drawer drivers, Star & ESC/POS mode emulation with a cartridge type interface in RS-232C and bi-directional parallel (IEEE1284). Options include paper rewriter for journals, near end paper sensor and wall mounting bracket. Models are available from a basic single color, tear bar version to a two-color model with auto cutter. The SP2000 series printers are an easy drop-in replacement and are backed by Star's 3-year warranty.

**W**ith the Star SP2000 printer, you simply get more for your money. Packed with features, it's so easy to use. Simply drop in the paper roll, insert the paper and shut the lid. No delays, no frustrated customers—just high performance printing at 3.1 lines per second. But that's not all. With the Star SP2000 printer, you're ready for anything.

ESC/POS compatible with OPOS drivers, this printer delivers a 40/42 column print width for receipts. And when you upgrade your system, the SP2000 moves effortlessly with you. Easy to use features give you plug-in interface cartridges, an 8 Mb Flash ROM with 38 code pages as well as a rewind option. Available in charcoal or putty, the only tough decision is the color

you'll choose. If you want a fast, low cost receipt printer that grows with your business, call us at 800-782-7636.
