

MePOS® Pro

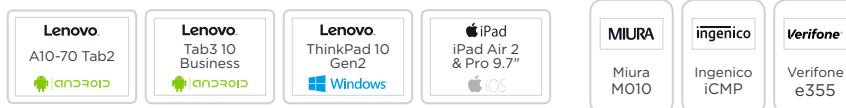

Modular Electronic Point of Sale

MePOS® Pro is a flexible, tablet based Point of Sale terminal with integrated printer which can quickly convert to kiosk or mobile Point of Sale.

MePOS® Pro

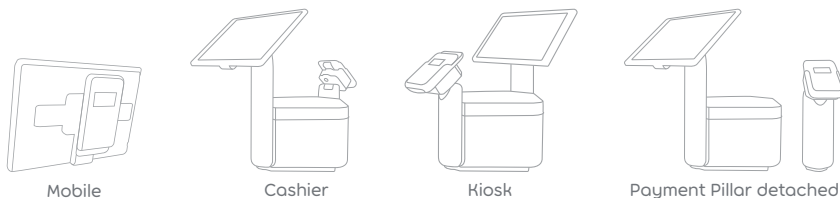

MePOS® Pro supports multiple options for tablet and payment devices, including:

Legacy payment devices can also be used with MePOS Pro using USB adapters. Contact us for more details.

Multifunctional

MePOS® Pro is modular and multifunctional and operates in a number of different modes including:

MePOS® Config & MePOS® Clinic

MePOS® Pro can self-diagnose system faults quickly and easily using the free apps **MePOS® Config** and **MePOS® Clinic**. Your customers have access to their own diagnostic tool, saving you time on customer support calls. They can also access our online support with full information on how to resolve issues.

Integration with Leading Point of Sale Software Solutions

The **MePOS® Connect Software Development Kit** allows easy integration with any Point of Sale software. **Get in touch** for a list of the currently approved ISV's, or visit www.mepos.io to start your development journey.
