27" Full HD LED Premium Display

High-Definition Television for Hospitality Environments

VT2756-L

The ViewSonic® VT2756-L is a premium 27" LED monitor with an HDTV-tuner to display HDTV programming. It features a glossy bezel design, as well as 1920x1080 native resolution, very fast response times, and a high contrast ratio for superior image and color performance. Versatile connectivity options include HDMI, PC, and traditional YPbPr and CVBS inputs. A RS232 control port with IR pass-through provides automated control for hospitality and commercial installations. Plus, HDMI CEC pass-through support provides one-touch-play and other control features for multiple connected devices. Users can select favorite channels and parental control settings for customized TV channel and hospitality mode programming. The VT2756-L includes a USB cloning function for music and photo playback, as well as for easier content duplication. Dual integrated 5-watt stereo speakers and SPDIF functionality make this display solution a complete multimedia entertainment package for hotels, restaurants, bars and other hospitality venues.

27" Full HD 1920x1080 Display Resolution

The VT2756-L features Full HD 1920x1080 resolution to deliver superior pixel-by-pixel performance for a more realistic viewing experience. With Full HD resolution, experience greater image clarity and detail that bring high-definition TV programs, HD movies, and other multimedia content to life.

Hospitality Mode for Automated Multi-screen Control

The VT2756-L is great for multi-screen setups in hotels, restaurants, sports bars, or retail outlets that require automated control and customizable presets. With a programmable hospitality setting, each television can have the same customized channel default, audio level, front-panel lockout, and auto power-up settings.

USB Multimedia Playback & Cloning

With the handy PC-less USB playback feature, photos and music can be immediately played and shared by plugging a USB drive into the display. In addition, the VT2756-L includes USB cloning for easy duplication in multi-screen environments.

IR Pass-through for Multi-device Control

The VT2756-L features a RS232 control port with IR pass-through to provide automated control for hospitality and commercial display installations. IR pass-through offers local control for set-top boxes or other connected devices, directly from the display's remote controller.

HDMI CEC Delivers More Viewing Possibilities

With HDMI CEC functionality, remote controller signals can be transmitted via HDMI cable to connected HDMI devices. This enables out-of-sight DVD players, sound systems, and other devices to be directly controlled with the display's remote controller for a wider range of viewing possibilities.
