32" Full HD Commercial LED Display

High-Definition Television for Hospitality and Commercial Environments

VT3200-L

The ViewSonic® VT3200-L is a sleek, premium 32" LED commercial display with an HDTV-tuner for HDTV programming. It features a glossy-finish, slim-bezel design, as well as 1920x1080 native resolution, 6.5ms-fast response times and a 3000:1 high contrast ratio for superior image and color performance. Versatile connectivity options include HDMI, VGA, YPbPr and CVBS inputs. A RS232 control port with IR pass-through provides automated control for hospitality and commercial installations. Plus, HDMI CEC pass-through support provides one-touch-play and other control features for multiple connected devices. An embedded media player plays back photos and video content via USB hard drive. And with hospitality mode, TV settings can be customized, including volume levels, default channel selection and more. Customized settings can be easily duplicated from display to display thanks to a USB cloning function. Dual integrated 10W stereo speakers and SPDIF functionality also make this display the complete multimedia entertainment solution for hotels, restaurants, bars, and other venues.

Built-in HDTV Tuner

ViewSonic's VT3200-L has a built-in ATSC/NTSC TV tuner that receives both analog and Full HD high-resolution TV signals. The built-in tuner offers viewers more content choices by delivering a wider range of HDTV channels, including channels for business, sports, education, movies, etc.

Full HD 1920x1080 Display Resolution

The VT3200-L features Full HD 1920x1080 resolution to deliver superior pixel-by-pixel performance for a more realistic viewing experience. With Full HD resolution, experience greater image clarity and detail that bring high-definition TV programs, HD movies, and other multimedia content to life.

Hospitality Mode for Automated Multi-screen Control

The VT3200-L is great for multi-screen setups in hotels, restaurants, sports bars, or retail outlets that require automated control and customizable presets. With a programmable hospitality setting, each television can have the same customized channel default, audio level, front-panel lockout, and auto power-up settings.

USB Multimedia Playback & Cloning

With the handy PC-less USB playback feature, photos and music can be immediately played and shared by plugging a USB drive into the display. In addition, the VT3200-L includes USB cloning for easy duplication in multi-screen environments.

IR Pass-through for Multi-device Control

The VT3200-L features a RS232 control port with IR pass-through to provide automated control for hospitality and commercial display installations. IR pass-through offers local control for set-top boxes or other connected devices, directly from the display's remote controller.

32" Full HD Commercial LED Display

VT3200-L

HDMI CEC Delivers More Viewing Possibilities

With HDMI CEC functionality, remote controller signals can be transmitted via HDMI cable to connected HDMI devices. This enables out-of-sight DVD players, sound systems, and other devices to be directly controlled with the display's remote controller for a wider range of viewing possibilities.

Versatile Input Connectivity

VGA, YPbPr, and USB inputs provide extreme flexibility, while 3 HDMI ports allow connection to HD set-top-boxes, media players, and Blu-ray players.

Applications

- Digital signage in retail spaces
- Hotel guest room entertainment displays
- Sports bar and restaurant entertainment display
